

School Sports Day 2005

10th July 2005

学校的运动日

二零零五年七月十日

Although the school has only a little time available to spend on sports it does not forget how important physical exercise is for the physical and social development of its pupils.

The school always devotes one lesson at end of the year to school sports. In 2005, for the first time, the setting for school sports was Durham Johnston School's other site at Nevilles Cross in Durham which enjoys a scenic view of the city and cathedral. Games of rounders were supplemented by traditional Chinese games, kite flying and a bouncy castle and a picnic to end the session and the year.
